

11 April 1950

MEMORANDUM FOR: Acting Executive
Chief, COMPS
Assistant Director for Collection and Dissemination

SUBJECT: Comments of AD/OCD on the Management Survey of the Industrial Register.

1. The original concept of the Industrial Register was to have available industrial information to all users, such information to be supplied on a selective basis. By ICF dissemination we are encouraging the establishment of miniature industrial registers in the IAC. It is believed that emphasis should be placed on further effort to obtain IAC agreement to discontinue ICF dissemination in its present form.

2. The other points of difference indicated by AD/OCD revolve around the basic problem of abstracting and coding. Continuing further study is being given to this problem in coordination with COAFS and interested Assistant Directors.
